**City Hall Auditorium  
110 River Street  
Milford, Connecticut**

For additional information on this project, please visit our website at [www.iroquois.com](http://www.iroquois.com)

The Federal Energy Regulatory Commission (FERC) will be the lead federal agency responsible for authorizing the Iroquois 08/09 Expansion Project. On March 9, 2007, the FERC assigned pre-filing Docket No. PF07-7-000 to this project. Representatives of the FERC may attend the open house meetings to answer questions about their review and public comment process. IPOC is considering the effects of this proposed project on all aspects of the environment and community, including the effects on properties eligible for and listed on the National Register of Historic Places in accordance with the National Historic Preservation Act of 1966, as amended.
